The road towards a **SUCCESSFUL** Showroom Appointment

START

1

BEFORE ARRIVAL CHECK:

- o Activity + Turnover
- o Products
 - + Categories bought
 - + Open orders
- o Customer Data
- o Open amount
 - + Credit limit
 - + Payment terms
- o Customer Website

WELCOME

- o Hang up coat and offer a drink
- o Small talk
(How are you? How is business?)

Never leave a customer alone 'wondering'

2

BEFORE START

- o Are you familiar with our company?
(explain terms and conditions)
- o How do you conduct business?
- o What sold well?
- o What products are you interested in?
- o Are you here for a Selection or an Order?

3

4

DURING VISIT SHOW

- o Articles the customer is interested in
- o Bestsellers
- o New items
- o Outlet items (printed list)

6

AFTER SALES PROMOTE & CROSS SELL OTHER BRANDS

- o Do you know our other brands?
- o Explain how to re-order
- o Explain claims policy
- o Check if we have the correct contact address
(every contact added is worth 15€ a year)

Check when to plan a new appointment!

5

CLOSING THE DEAL

- o Check if terms and conditions are clear
- o Check delivery date
- o Confirm notes with the customer
- o Confirm the delivery address with the customer

take initiative

collaborate

work neatly

planning

HOUSE RULES FOR THE SHOWROOM EVENT

The showroom event is just around the corner. This is a great opportunity to remind everyone of the agreements or rules that have already been made. These are probably rules that everyone is already aware of, but it's always good to mention them again. This way, we can make it a wonderful event together!

Dress Code:

The dress code for the showroom event is casual neat and businesslike. This means you should be dressed representatively and have a professional appearance.

It is expected that you wear clothing appropriate for a business environment. Therefore, no sportswear, flip-flops, shorts, overly short clothing, and overly casual outfits etc.

Personal Hygiene:

Ensure that you are fresh and well-groomed. Pay attention to personal hygiene.

Professional Behavior:

Always be professional in your behavior and language. Treat all attendees with respect and kindness, including colleagues, visitors, and customers.

Avoid negative or offensive remarks about colleagues, competitors, or products.

Mobile Phones and Electronic Devices:

The use of mobile phones and other electronic devices is only allowed if necessary for work-related tasks. If personal device use is necessary, limit it to breaks or outside the showroom space.

Confidentiality and Data Protection:

Always be aware of the confidentiality of company information and customer data. Handle sensitive information responsibly and do not share it with unauthorized persons.

Ensure all electronic devices are locked with strong passwords and do not leave them unattended in the showroom.

Cleanliness:

Let's ensure together that the showroom space is neat and tidy. If everyone contributes, we will present ourselves well. To make the most efficient use of the coffee area, encourage customers to use the coat rack for jackets and bags. This way, the table can be used by the next person.

Punctuality:

You know your own schedule best. Be present well before your client arrives. If you are unexpectedly delayed or absent, inform your colleagues.

For account managers with appointments during the event: ensure you are also available throughout the day to assist other clients.

Last but not least, enjoy the event, be enthusiastic, and share your ideas! We are here to make an unforgettable impression, so let your creative spirit run free and present our 'World of Inspiration' with appropriate pride.

Let the spectacle begin!

Themes AW2024

FUNKY FUSION

Funky Fusion

It's botanical. It's dark. It's Funky Fusion. Our main theme revolves around rich fabrics, luxurious materials, and interesting shapes. And lots of greens, golds, and a dash of hot pink.

A dark, lush botanical garden

Where to begin? With the jungle-esque MARIAMA hanging lamps? The shapely SAMUI candle holders? The gorgeous CETARA table lamps? The softness of the MALACIA lamp shade? The quirkiness of the MURELA vases? It doesn't matter where you start, but you will end up with a room full of furniture and accessories that will make the space feel like a dark, lush botanical garden.

Mysterious vibe

The theme's main shades (emerald, pink, and gold) are perfectly captured in the BURONDA etagere and the KOLIBRI candle holders. Hints of gold and petrol from the MARCIO hurricane and the PANTHEO tea light reinforce this theme's mysterious vibe.

MIDNIGHT MOSS

Midnight Moss

Midnight Moss theme is filled with fabulous understated hues, antique bronze, and fine leather.

Complementing hues

Because most elements within this theme are either green(ish) or aubergine-coloured, they all work really well together. Like the VICARI candle holders that match perfectly with the ZAZINA table ornament, the KOSAKA dining chair and the green marble of the YNEZ table. It also complements the green hues in the DAKWA side table and the MICKY table lamp.

Centre of attention

Our AVOCADO vase puts the kitsch in kitchen. Its interesting shape and texture will be the centre of attention during your next dinner party. It also pairs well with the ELIZA tea lights and OWL vase.

Colours

Sand, olive green, green, brown, antique bronze, brown bronze

VINO ROUGE

Vino Rouge

Every item in the Vino Rouge theme exudes the richness of a fine red wine. Drink it in through its *ton-sur-ton* colours, smooth velvets, classic woods, and shiny eyecatchers.

A theme fit for a god

Bacchus himself would come down from Olympus to visit a home that was filled with items from the Vino Rouge theme. He would marvel at the peculiarity of the BEKAPO vases, and the soft shapes of the TACITU footstool. And we're sure that the fringe on the MALACIA hanging lamps would tickle his fancy, as well as the FLOWER tea light.

The stars of the show

In this theme, the accessories are the (albeit modest) stars of the show. The BURONDA etagere shines, especially when set on or near the MAES decorative dish. This also goes for the KORTOSI and LEANJA vases and the ADETA hurricanes.

GINGER GOLD

Ginger Gold

With its antique bronze, smokey greys, deep blacks, glossy surfaces, and interestingly-shaped ceramics, this theme simply breathes luxury. Add a splash of amber and some mirrors *et voilà*: Ginger Gold.

A philosophical approach

Witwood light, there can't be dark - a philosophical approach to interior decoration. To create contrast, this ultra-luxurious theme combines light and dark colours but also smooth and rough textures. The roughness of the KIALY chair pairs very well with the smooth surfaces of the gold-coloured OXE coffee-table set and the smokey colour of the LUKARO lamps contrasts with the creaminess of the SABARA deco pot.

Exuding luxury

The caramel-coloured, velvet KNOT pillow, the bronze BIYANG deco vases, the LUKARO hanging lights, the ELIAS rug - each and every single accessory in this theme exudes luxury.

Colours

Amber, grey, smoke, black, antique bronze, bronze, glossy

Materials

Marble, agate, mirror, velvet, bouclé, glass, ceramic

GOLDEN OASIS

Golden Oasis

Imagine a design-starved desert. Far away, you see a glimmer. An oasis! A gorgeous Golden Oasis with champagne hues and ochre colours, sandblasted wood, comfortable furniture, fine linens, and golden accents.

Whimsical, shapely & cute

Turn your home into your own luxury oasis with the bouclé UVITA sofa, the CAVAZZO cushion, the ELATI hanging lamps, and the LAPAZ side table. The MEAVE cabinet is spacious enough to display your favourite pictures and still have some room left for the whimsical ODATE vase, the shapely ZAZINA ornament, or the chic ELIZA tea lights.

The perfect size

For that little bit of additional luxury, we highly recommend adding the VODICE ornament to your home décor. It's large enough to make a statement but not so large that it takes over the space (i.e., the perfect size).

Colours

Sand, light grey, grey green/olive green, yellow ochre, brown, champagne, gold

MINTY

Minty

Our Minty theme is nothing if not modern. It mixes matcha and mint-coloured items with cream-coloured basics and natural Materials. Bright green and yellow accessories add a pop of colour.

Light & happy

This theme combines wood, glass, and metal with light and happy colours that are reminiscent of spring. The KAMOVU chair is as comfortable as it's stylish. And it's the best seat in the house, giving you a chance to marvel at the dapper FABVA vase, the smart DANIA hanging lamps, the wooden DOZZA candle holders, and the cute REWA vases.

Fluffy sturdy pillows

Sometimes, all you need is a big pile of fluffy pillows. Whatever you use them for, the CELLIO, SAKALA, and TOFNA throw pillows are made from the finest and sturdiest Materials.

Colours

White, cream, sand, yellow, green (grass/mint), gold

RETRO VIBES

Retro Vibes

This season, our Retro Vibes theme is filled to the brim with interior-design classics, such as chrome, velvet, and glass, and throwback colour combos, such as orange, brown, and cream.

1970 vs 2024

This 70s-inspired theme has a modern flourish. The 70s are well-represented in the colours, materials, and general vibe of the APULA dining table, the shiny SURRINA table lamp, and the dining chair. You'll find the 21st century in the contemporary shapes of various accessories, such as the 'winged' MELINK vases, the WANHATI tea light, and the ODALI ceramic vases.

The 'Me decade'

Nothing in this theme captures the atmosphere of homes in the 'Me decade' like the different lamps that are featured in this theme. With its colour palette, frills, and distinct shape, the MIZIA hanging light is the epitome of the 70s.

Colours

Cream, ecru, beige, sand, caramel, cognac, (dark) brown, chrome

DENIM BLUES

Denim Blues

The official motto for the Denim Blues theme is 'less is more'. This theme is all about minimalism and boasts multiple blue hues, cool shapes, and an overall modern vibe.

Embrace the 21st century

Embrace the 21st century with all that this contemporary theme has to offer. The dark-blue UVITA sofa is the perfect place to relax after a long day. Especially when you put your drink on the PUNO coffee table or on the JAKOLA stool and turn on the SURRINA table lamps. Now, nothing can stand in the way of a perfect evening at home.

Dancing lights

You will love the way the candle light from the MALEA and WANHATI tea lights dances on the white-and-blue stripes of the MUNDAKA deco vases.

Colours

White, black, (dark) blue, cobalt

LOFT

Loft

Transform your suburban home into a Manhattan loft with the luxury items from our Loft theme. Dark woods, chic marble, and sleek velvet are the stage on which the accessories shine.

Extravagant vibe

Matte surfaces, shiny accessories, and interesting textures work together to give your home that extravagant vibe that you will find in penthouses and lofts all around the world's metropolises. The dark wood of the LOUISA cabinet is the perfect backdrop for your favourite books, albums, and other treasures, as well as the ASHORO vases and the LEANI tea lights.

Let the luxury wash over you

Stretch out on the KIALY sofa, hug the fluffy VAJEN cushion tight and let the luxuriousness of your home wash over you. Or light a candle in the SALTILLO candle holder and let your favourite coffee cool down on the ZAPALA coffee table. Either way, enjoy!

DESERT GOLD

Desert Gold

Desert Gold is what would happen if you would decorate your vacation home with Middle-Eastern accessories. It combines warm desert colours with natural shapes and modern materials.

Bohemian flair

Give your home a touch of bohemian flair with the LONIA hanging lamps, the ALICE bar stools, and the ULLOLA deco vases. Or throw the MIRASO plaid over your favourite chair. It goes really well with the HUSLIA, CANAZEI, and TEDDY cushions. If you're into delightful shapes, then the LONIA hanging lamps and the ANTIGA candle holders are made for you.

A perfect match

The OTA candle holders match perfectly with the polyresin VEDELLA deco vases and with the TRESA etagere, which all look great on top of the BIBOCA dining table. Pull up a MELAKY chair and you're set.

Colours

MUSHROOM

Mushroom

If brown and grey is your thing, our Mushroom theme is made for you. We combined paper maché with linen and ceramics to create an earthy atmosphere, which is enhanced by natural grey hues.

Centrepiece

The SUKAU hanging lamps will be the centrepiece of your room. Their soft light touches everything, from the (brand-new!) DEHESA wall art, CELANO mirror, and TRENETA rug to the NAHUA cabinet, the CASTOR cushion, and NAMTU deco vases. And if you're looking for some extra lighting, just place an IMOLA lamp base with the DARK LINEN lampshade on the QIANO side table.

Shadow patterns

If you place a couple of ELVIRA tea lights in front of it, the candle light will shine right through the LIVNO ornament and create interesting and fantastical shadow patterns on the wall behind it. Sit back and enjoy!

Colours

Ecru, sand, beige, light/dark grey, (greyish) brown

SANDY BEACH

Sandy Beach

The countryside and the 21st century meet on the shores of Sandy Beach. Let the colours of the beach wash over you with this modern, well-balanced, *ton-sur-ton* theme.

Those long summer evenings

To really drive that beach theme home, Sandy Beach features natural Materials, soft shapes, and light colours, along with some gold accents for a hint of luxury. The UVITA sofa is as sturdy as it's comfortable, perfect for those long summer evenings. Also perfect for those long summer evenings, is the BUDONGO lamp base, especially when you combine it with the MEDANA lamp shade.

Contemporary cute

The LUZZU deco vase is made with standard ceramics, but in a contemporary shape that perfectly captures the rural and modern vibe of the theme. Speaking of contemporary, did you see that cute little ceramic CAMEL ornament?

Colours

Cream, ecru, sand, beige, accents in gold

COFFEE BEAN

Coffee bean

What happens when you upgrade an 18th century farmhouse? Exactly: the Coffee Bean theme. Dark browns, ecru, golden accents, rotan, bouclé, and contemporary shapes are all part of this modern theme.

Stylish & fun

That interior design can be stylish and fun is proven by the quirky shape of the VEGLIO side table and the BUGIBBA deco vases. Made with classic Materials, such as wood and ceramics, their shape and design brings them right into the 21st century. This also goes for the bouclé AVORIA chair, the TINGO deco vase, and the OLONA lamp base.

Starring: mushrooms

For us, the stars of this theme are the mushroom-shaped accessories, such as the mushroom-studded PLENTZIA deco vase and the upside-down-mushroom vase, NEIRA. They don't only look good on the AYMARA dining table but also in the LILIAN cabinet.

NATURAL

Natural

This theme is all about comfort and style. It combines basic colours, such as white, beige and a flash of green with natural Materials, such as rotan, acacia wood, and seagrass.

Natural vibe

If Mother Nature - the world's first interior designer - were to decorate a room, we're sure she would choose every last item from the Natural theme. From the raw raffia of the KABINDA hanging lamps and the interesting shape of the ALVEZO candle holders to the soft wool of the XAMURI rug, this theme gives your space a floor-to-ceiling natural vibe.

Perfect

The cream-coloured TABUA etagere is perfect for storing your knick-knacks, holding your jewelry or displaying some pretty rocks. Just like the SABARA deco box is perfect for holding larger items, such as pens, beauty products, or bulbs of garlic.

Colours

Sand, light grey, grey green/olive green, yellow ochre, brown, champagne, gold

Materials

Wood (sandblasted), metal, leather, papier maché, ceramics, rattan, linen

Labels

Labels

In the showroom, various labels are attached to the products. Some are standard, while others indicate specific features or materials. Below is an explanation of the different labels we use.

PRODUCT LABEL

Each item in the showroom has a hangtag with the logo, and on the other side, a sticker with the product information. This includes the item number, item name, dimensions, and a scannable barcode.

JUST ARRIVED

To indicate which products have been newly added to the collection, a JUST ARRIVED label is attached. This is managed by the styling team.

PROMOTION

This label is attached to items that have a promotional price or are part of a specific promotion.

We are increasingly using sustainable materials in the production of the products in our collection. To inform customers about this, we have developed various hangtags that are attached to these specific items. We list them for you.

HANDMADE

This label is attached to products that are handcrafted. The price of the product may therefore be slightly higher than average.

Because the product is handmade, there may be visible differences between the items.

front

back

RECYCLED GLASS

This label is exclusively attached to products made from recycled glass.

front

back

PAPER MACHÉ

This label is attached to products made from paper-maché. Paper-maché is made from recycled paper and is not waterproof.

Examples

Fine paper: SORELL, MELIS, TARIFA, SALOU en MELILLA
Coarse paper: GARDEZ, KAROTA, TIMERGA en GELAN

front

back

Materials

Materials

Aluminum

Aluminum is a malleable silver-white metal. It is remarkably light in weight compared to other metals. For instance, it is 60% lighter than iron. Yet, it is a strong material, resistant to corrosion and does not rust.

What's interesting about aluminum: despite its relative strength, the metal can be excellently shaped into any desired form. Aluminum is also highly suitable for powder coating or wet painting in any chosen color.

Iron

Iron is a chemical element, a gray, rough transition metal. Iron is extracted from iron ore, mined in iron mines located in many parts of the world.

In everyday language, the term "iron" is often used to refer to material that is actually called steel, an alloy of iron and carbon.

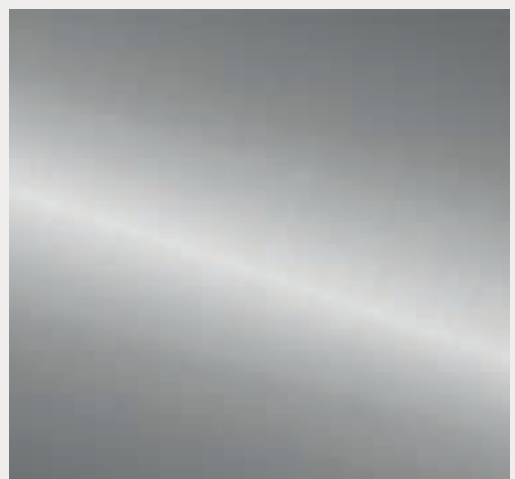

To prevent rust formation on iron, the material must be provided with a protective layer. Consider surface treatments such as wet painting, powder coating, or galvanizing. Iron used in products is more cost-effective than stainless steel.

Stainless steel

Stainless steel is a versatile, wear-resistant material that can be produced in large quantities at once. Because stainless steel can be used both indoors and outdoors, it is suitable for processing into various objects and articles.

Stainless steel is an alloy of mainly iron, nickel, chromium, and carbon. Stainless steel is more corrosion-resistant than steel. On stainless steel, a thin layer (transparent rust) forms, which then protects the underlying material. The addition of nickel in stainless steel also makes it non-magnetic.

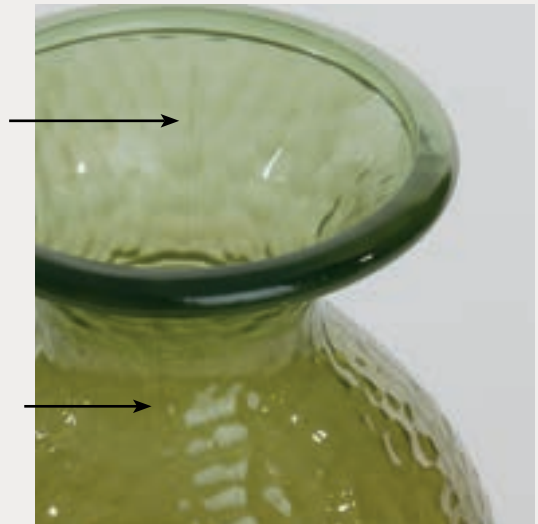

Glass

The main substance used in the manufacture of glass is quartz, as mentioned earlier. This raw matterial is extracted from sand. For glass production, a mixture of lime, soda, and mixed sand is used. This mixture is melted at high temperatures. Subsequently, the matterial is cooled very rapidly, causing it to harden. Before the glass is completely hardened, it is easily moldable. There are various ways to work glass, including;

MACHINE-MADE

Made using a machine or mold. This can be recognized by the clearly visible seam on the item.

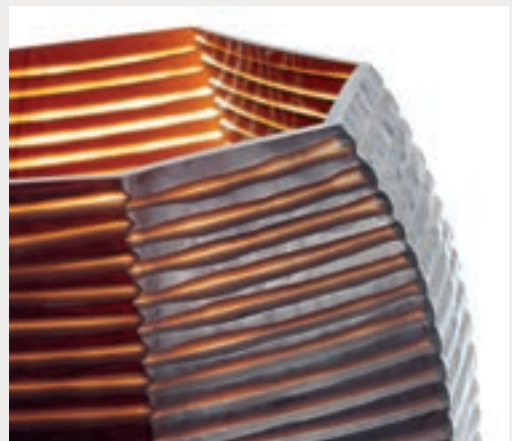

HAND-BLOWN

These items do not have a visible seam and are in the higher price range.

HANDMADE

The item features relief or ridges, which are handcrafted. As a result, it falls into a higher price range.

Agate

Agate is a gemstone from the quartz family. This typically beautifully striped stone ranges from transparent to translucent and sometimes features an irregular pattern. Characteristically, agates are often almond-shaped because they are formed in volcanic gas bubbles.

Tabletops made from agate can be identified by the separate pieces of stone that have been polished into a smooth tabletop.

Marble

Marble is a natural stone formed by the transformation of limestone. It is characterized by color variations, veins, and a crystalline structure. Marble is available in various colors. We use marble sourced from India and Italy.

INDIAN MARBLE

Black, white, and gray marble.
Usually sourced from India. (Note: not always).

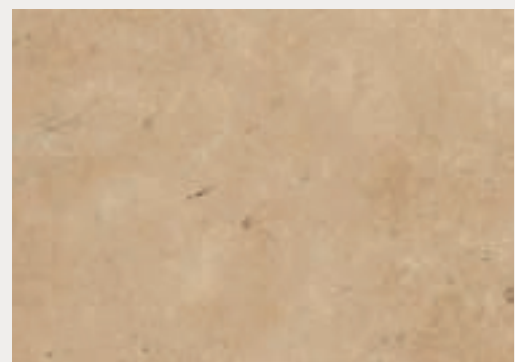

ITALIAN MARBLE

Marble in various colors, sourced from Italy. This is evident from its higher price range.

Travertine

Travertine is a warm and elegant type of natural stone. Its appeal largely comes from its color tones ranging from beige to a brownish hue. Travertine is a porous natural stone that is highly sensitive to water. Due to its cellular structure, water that seeps in does not easily escape.

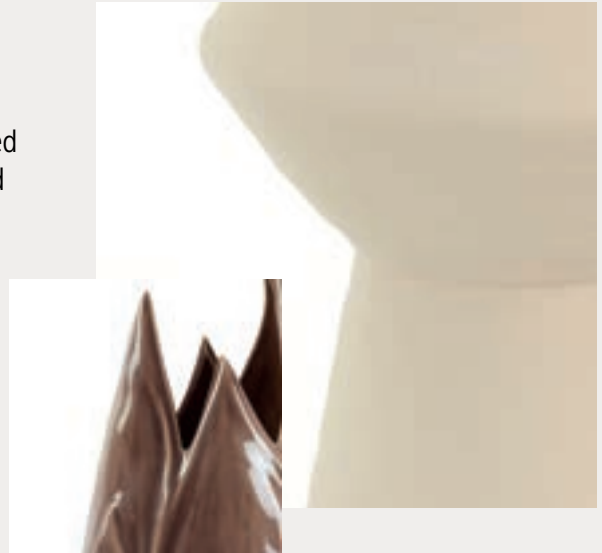

Ceramics

Ceramics is the collective term for all objects made from baked clay. After being processed, shaped, and dried, the clay is fired into a stone-like material: **ceramics**.

Our items come with a matte finish, as well as a glazed finish.

Please note, these items are not waterproof!

Terrazzo

Terrazzo, also known as granito, is a speckled stone made from leftover materials from marble and granite, or chips of glass and metal cast in concrete.

This beautiful material was once conceived as a solution for those who found marble too expensive. The type of stone has since become extremely popular again.

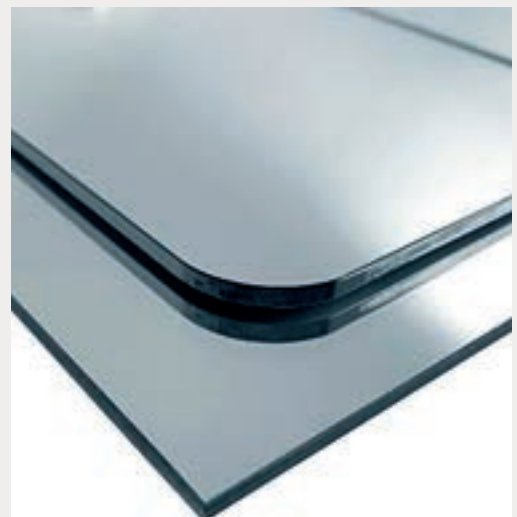

Mirror

A mirror is essentially just silvered glass. A layer of silver is applied to the back of the glass, which is protected by a cover layer. Because the silver is applied completely flat, it reflects images.

When the glass has a color, it is referred to as "bronze silvered" or "smoke silvered." These are then bronze or smoke-colored mirrors.

Examples of colored mirrors: ESPEJO

Wood

All our wooden products are made from FSC-certified wood. However, we are not permitted to use this logo.

ACACIA

Acacia wood is a solid hardwood sourced from eco-friendly plantations. The artistic characteristics of acacia include its fine grain, flame pattern, and varying color shades. Hairline cracks, wind splits, imperfections, and knots are scars that represent the life of the tree. The wood naturally has a reddish glow; over time, due to UV radiation, the color of the acacia wood will become lighter and warmer.

Some examples include:
MIMOSO dining table, QUENZA dining table, YUKI series.

OAK

Oak wood is one of the most well-known types of wood. It is incredibly strong, hard, and has an authentic yet lively appearance. Despite these properties, it is a type of wood that lends itself perfectly to crafting.

Oak wood can be identified by its yellow-brown to dark brown color and robust appearance. Additionally, oak wood adds a lively character to any piece.

Some examples include:
NORI dining table, MYLAU dining table.

MANGO

Mango wood is a type of hardwood originating from Southeast Asia, particularly India. A mango tree can grow up to about 40 meters in height with a trunk 3 to 4 meters thick. This allows for the production of thick, sturdy planks, making mango wood highly suitable for furniture.

Mango wood has a warm appearance with a light to golden brown color. Each tree is unique, and thus each piece of furniture is unique as well! Additionally, mango wood is an ecologically responsible wood type since the species is not listed as endangered.

Some examples include:
MAGNIFERA dining table, LARUS side table, MUDEN series.

Wood Finish

Our furniture and accessories come with a beautiful finish. This enhances the aesthetic appeal of the product and also makes maintenance easier.

SANDBLASTED

Yes, you can sandblast wood.

Sandblasting is commonly applied to wooden pieces that have been previously painted. Sandblasting wood is considered a very efficient and effective process.

Starting with low pressure using soft media and a steady hand are key elements for successful and safe sandblasting.

OIL

Furniture made of oiled wood appears slightly darker and warmer in color. The oil is rubbed into the wood surface and penetrates deep into the pores of the wood, resulting in a protective layer.

However, oiled furniture remains vulnerable to stains and rings because the open structure of the wood is preserved.

Proper maintenance is therefore very important! The oil also prevents the wood from drying out and gives the wooden furniture a nice subtle sheen.

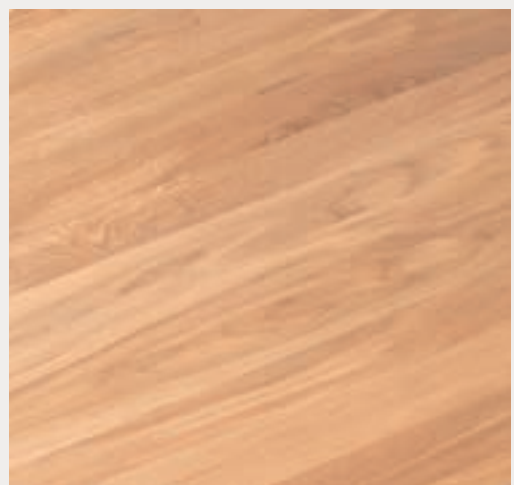

NATUREL

Natural wood refers to wood in its purest form.

This means that the wood retains its natural appearance, and the color and structure of the wood remain visible.

However, this wood is always treated with a transparent finish.

Some examples include:
MAGNIFERA dining table, LARUS side table, MUDEN series.

Bamboo

Bamboo is a type of grass and has an enormous range of applications. Almost everything can be made from bamboo. It is widely used in construction due to its strong properties and is utilized in furniture, clothing, and consumer products.

Bamboo is the fastest-growing plant in the world and primarily requires abundant sunlight to grow. The stems are hollow inside and are periodically interrupted by nodes where leaves attach. Because bamboo is hollow, it can be easily distinguished from rattan.

Rattan

Rattan comes from the rattan palm, which is a long vine commonly found in the (sub)tropics. Rattan typically comes from plantations specifically set up for its production, but sometimes it also comes directly from rainforests. The thickness of rattan stems varies depending on their origin and growth phase. The stems suitable for furniture usually have a diameter of about 5 to 7 cm. Rattan is often confused with bamboo because they look similar, but rattan is solid, whereas bamboo is hollow.

Seagrass

Seagrass, as the name suggests, is a water plant that grows in salt-water around the world. After harvesting, the plant is mechanically processed into a continuous thread, which varies in thickness here and there. It is a rough material and is widely used because it is very strong.

Seagrass is a natural material that can be used for weaving hanging lamps and baskets. The production of these baskets and hanging lamps is less environmentally damaging because they generally last longer than other baskets and lamps. Seagrass is therefore a sustainable product!

Webbing

Webbing is a weaving technique that creates an open structure following a specific pattern. For this weaving, rattan was used. Rattan is a vine from the palm family and consists of a thick bundle of leaf stems inside a strong shell. This was then cut into 'cane webbing' and used to weave into an opening in a piece of furniture: the webbing.

Because webbing is so flexible and easy to cut, it is also a great material to incorporate into accessories.

Examples of webbing include: HERWIN, MELAKY.

Resin

Resin, also known as Polystone, is a unique material consisting of crushed stone mixed with liquid synthetic resin to create a pourable mixture.

This material is not waterproof by default unless stated otherwise.

The Vendie, Valerie, Vedolla, Vedella vases are exceptions to this and are indeed waterproof.

Jute

Jute, like cotton, flax (linen), and hemp, is a natural fiber. It comes from the jute plant and is the second most used vegetable fiber in the world after cotton. Jute is also known as "golden fiber" because of its golden color and silky sheen. The material is exceptionally strong and is also one of the cheapest natural fibers in the world.

Jute is a natural fiber obtained from the stalk of the jute plant (2 types). These types are found worldwide, particularly in (sub) tropical areas.

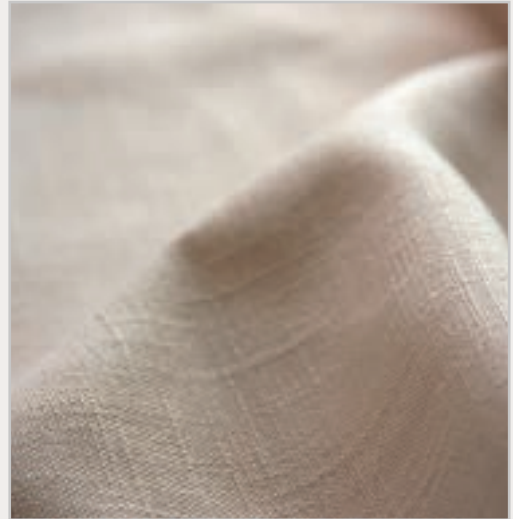

Examples of jute products: TOSSA, LAVATERA, PITINO, FUGIA.

Linen

Linen fabric is made from natural plant fibers extracted from the flax stem. Fabrics made from natural flax yarn possess a number of unique properties.

Linen fabric is hypoallergenic and also has antibacterial properties. It is exceptionally strong, has a high moisture absorption capacity, and is breathable as well.

Teddy

Teddy fabric is a soft and cozy material made from a combination of cotton, polyester, and acrylic. This fabric is produced using a warp pile weave technique. This means that loops are woven which are then not cut. Combined with long plush, this results in a cuddly fabric.

Bouclé

Bouclé is a fabric characterized by loosely woven patterns, threads, and loops made from various Materials. The word "bouclé" is French for "loop." Thanks to its unique weaving technique, this fabric features various textures. Despite its coarse texture, the fabric is actually soft.

Bouclé is very easy to clean with water, making it highly suitable for furniture pieces.

Velvet

Velvet is a soft fabric made from 100% polyester. The softness of the fabric lends a luxurious appearance. Products made from this material instantly create a velvet chic interior style, but velvet also fits well within various other styles.

Velvet is produced by weaving upright polyester loops. These woven loops are then cut, creating short, shiny hairs.

Leather

Leather is a material derived from animal skin. Leather is not made; it is grown. It is a natural product and is processed through various methods to achieve the desired final product.

There are different types of leather. At our company, buffalo leather is the most commonly used.

Papier-mâché

The trend towards sustainability includes items made from papier-mâché. As the name suggests, papier-mâché items are handcrafted from a mix of paper and glue. Paper scraps are reused and repurposed into trendy home accessories.

In our products, we differentiate between two types of papier-mâché: coarse and fine paper. Please note, these items are not waterproof!

Examples of robust papier-mâché include: GELAN, GARDEZ, KAROTA.

Examples of fine papier-mâché include: NORELL, MELIS, TARIFA.
